

SL15 status lights range

Hazardous location, ordinary locations

Overview

These status lights have been designed for use in potentially explosive atmospheres and harsh environmental conditions. They are suitable for use offshore or onshore, where a high degree of corrosion resistance is required. The housings are manufactured from a U.V. stable, glass reinforced polyester (GRP) fitted to a stainless steel mounting plate for ease of installation.

Stainless steel fixings are also used, ensuring a corrosion free product.

Units can be painted to customer specification and supplied with identification labels.

Units can be supplied as 2, 3 or 4 way in any combination of xenon strobe or filament lamp. 5 way available by special order.

Features

- UL certified for USA and Canada
 - Hazardous locations:
 - Class I, Div. 2, Groups A, B, C & D
 - Class I, Zone 1, AExd IIC T3/T4/T5/T6
 - Ordinary locations
 - Visual signal device
 - Marine listed
- ATEX and IECEx certified
- IP66 and IP67
- Certified temperature:
 - 67°F to +158°F
 - 55°C to +70°C
- Corrosion free GRP
- Filament 60W
- High powered LED flashing or steady
- Various flash rates available for xenon units
- Various lens colours
- Optional cast or wire lens guard
